
Cornalin de Fully

2022

Terroirs of Les Tatzes and Combe d'Enfer (gneiss),
490 to 640 metres above sea level.

Wine

This is a rare vintage, as it is not produced every year: in good years, it impresses with its intense fruitiness when young (blackcurrant, blueberry) and its toasted notes. It is a structured, very dense wine that takes time to develop.

Wine-making

Partial or total whole bunch vinification, ageing in used casks and barrels for 12 to 18 months, then in bottles for 3 to 18 months.
