
Humagne

2022

2500 bottles

It comes mainly from vineyards in Les Prix, Leytron, and also from others located in Fully and Saillon.

Wine

Humagne is characterised by low acidity and a pale colour. It can be sensitive to oxygen, hence the importance of achieving good concentration in the vineyard. On the nose, there are aromas of violet, blackcurrant and pencil lead. On the palate, the texture is similar to Pinot Noir, but with more spice and structure.

Wine-making

Vinification in vats and ageing in barrels and casks.
